## About

As a Cybersecurity student, I am driven by a strong desire to enhance my knowledge and practical skills in the field. I am committed to learning and applying the latest security practices to ensure the highest level of protection for network system and website.

## Experience

**ASEAN Student Contest on Information Security** Top 12

2023

TLU CyanWater

**CLB TAS - TLU Algorithm and Security**

2022

Specialized Committee

This is a group of members who focus on researching academic issues and guiding other members. In addition, the group also represents the club and the school in participating in CTF and coding competitions both domestically and internationally.

**BKCTF, PwC: HackADay, etc.**

2022 -

Competitor

I always strive to participate in as many CTF competitions as possible to gain experience and identify my own shortcomings. From there, I draw lessons to develop myself.

## Education

**Thuy Loi University**

2022 -

Bachelor's Degree in Cybersecurity

## Skills

C++   Comprehend English docs   Research   Basic of OSI model   Basic of OSI protocols

# Projects

## VANET

A project to simulate a wireless ad-hoc network that provides communications among vehicles with OBUs and nearby RSUs

OMNet++ C++ INET Framework

SUMO Veins Framework WebRTC
